

Hockey Team on Toboggan During the Past Week

Three Defeats in Succession Gives
Jolt After Winning Streak in
First Part of Series—Prob-
able Changes in Team

Coleman's winning streak in the Crow league series, took a turn last week. Defeated by Blairmore on Jan. 8, the team decided to try an exhibition game at Gratum on Monday, where they were defeated by a score of 8-3. On Tuesday evening they played a league game here against Bellevue, and were defeated by a score of 5-4.

In the latter game Bellevue was strengthened by "Doc" Harbour, playing defence, and who coached his team to victory, wiping out their previous defeat on Coleman when they were whitewashed by a score of 7-0. Gate of Coleman, who has played a consistent game throughout the series, again scored three of the four goals for his team, Jimmy Fraser scoring the other, Hallworth and Hall scored two each for Bellevue in the opening period, and Turner in the second, the third period being scoreless, though Coleman made a determined attack on the Bellevue goal, when a succession of shots were turned aside by Amos. Most of the play in the third was in Bellevue territory, but their defence played a splendid game, and despite Coleman's spirited attack, they were unable to score.

Hallworth of Bellevue and Huffman of Coleman were the only two to draw penalties. Jimmy Brennan was referee.

Anglican Church Is Free of Debts

Women's Auxiliary Gives Liberally
Towards Church Expenses
and Has Credit Balance

Reports at the annual meeting of parishioners of St. Alban's church held on Monday evening showed the year completed with all current expenses paid and no liabilities, while the Women's Auxiliary and Junior W. A. had cash balances in their favor. The rector's report was given by Rev. A. D. Currie, the warden's report by Mr. A. Morris, the W. A. report by Mrs. F. Thom and the Junior W. A. report by Isobel Atkinson.

Officers elected for the year are: R. F. Barnes, rector's warden; H. T. Halliwell, people's warden; A. J. Morris, envelope secretary; W. Burrows, vestry clerk. Members of the vestry, F. Graham, F. Thom, J. Rushton and L. Lindoe.

Hospital Notes

There were 11 patients in hospital Dec. 1, admitted during Dec. 23 discharged 26, total treated in hospital 34, patients remaining in hospital 8, treatments for out patients 72, operations 15, total hospital days 258.

Patients treated in half year 187, total hospital days for half year 1559.

YEARLY REPORT

Total patients treated 351, total operations 226, medical cases 69, maternity and obstetrical cases 5, surgical cases 277, deaths 10, total hospital days for 1928—, patients treated in 1927 254, operations in 1927 181.

The patients and staff wish to thank the following for gifts at the Christmas season: Mrs. R. Ferguson, Mrs. Graham, Mrs. Neil, McGilivray Creek Coal & Coke Co.

Will those who have borrowed utensils from the hospital return same forthwith.

H. Proudlock working at the McLaren lumber camp near York Creek, was admitted on Monday with a crushed leg.

John Lundquist, injured on the road construction outfit in the vicinity of Crow's Nest Lake, was admitted on Tuesday.

Mrs. F. Malak, Mrs. Kotch, and Miss Hilda Houghton were in hospital for operations.

Born: To Mr. and Mrs. Eric Gudmundson, on Jan. 14, a daughter.

Miss E. Craft, R.N., of Edmonton, has taken the place of Miss Jenkins on the staff.

Enjoyable Whist Drive and Dance

The L. O. L. and the L. O. B. A. joined in a whist drive and dance on Wednesday evening, Jan. 9, in their hall, at which 28 tables were in play. The prizes were won by Mrs. Kilgannon, Nettie Gillespie, Jim Hilditch and G. R. Powell. Supper was served at the conclusion of play, and the remainder of the evening given over to dancing till 1 a. m., Mason's orchestra supplying a fine dance program. These organizations hope to hold another dance in the near future.

ST. ALBAN'S CHURCH, COLEMAN

Thursday, January 17, W. A. sewing meeting, 7.30 p. m.

Friday, January 18, choir practice, 7 p. m.

Sunday January 20, evensong, 7 p. m.

Gratum's aggregation of semi-pro hockey stars will play in Coleman on Friday, Jan. 25, in an exhibition game. The admission is 35c adults and 15c children. Season tickets for the league schedule are not good for admission at this game, as exhibition games are played on a guarantee basis. This will be a game well worth seeing, and a big attendance is anticipated.

Shall the Women's Institute Continue It's Useful Work?

This is Important Question to be Decided at Annual Meeting on Jan. 22—Statement of Useful Record in Community Activities Merits Attention of Coleman People

The annual meeting of the Women's Institute will be held on Tuesday, Jan. 22, at 8 p. m., at the home of Mrs. L. Lindoe. It is hoped that this meeting will be largely attended as it is felt that if more general interest is not taken by the membership, there is no alternative but to disband the local organization.

It is regretted that this action is felt necessary, in view of the splendid work which has been accomplished, and the need for the continuance of such work. The W. I. has always been active and in the forefront of any movement which has for its aim the improvement of local conditions, from a viewpoint of education, health, distress relief, or any other worthy cause.

The Institute has not made a practice of giving great publicity to its activities, but it is now felt that the circumstances call for a statement of some of the work which has been done under the auspices of the local body, since its inception.

First and foremost, the Institute has never refused aid to any case of distress of which it has received notice; and in a great many instances have uncovered cases of need by their own investigations. This work has been carried on quietly and continually, and in times of general want occasioned by strikes, epidemics of influenza, the workers have given their time and efforts unparagingly. Innumerable children have been clothed and shod, and the absentee list from school attendance has been greatly cut down through the work of the W. I.

In the field of education, the W. I. inaugurated a contest for a Grade 8 medal, which has been do-

minated for several years; and lectures in varied fields have been brought to Coleman under their sponsorship. The annual School Fair was also conducted under the auspices of the W. I. Child Welfare Work, Baby Clinics, School Gymnasiums, have also received the attention and financial assistance of the organization.

In the main community enterprises, namely the skating rink and the swimming pool, the W. I. took a very active part. Donations to the rink fund totalled \$11.00, and a loan of \$500 was also made, and is still current. To date \$330 has been donated to the swimming pool.

The local graveyard was fenced with material supplied and purchased by the W. I. and in keeping with the creed of the Women's Institute to give aid wherever it is needed, donations have been made yearly to outside institutions such as the Wood's Home for Children, the Armenian Relief Fund, etc.

It must not be supposed that this list fully covers the work of the W. I. as it would make too lengthy a report for publication to give a complete record; but sufficient has been given to render an idea of the varied and many fields in which the work is carried on.

The decision is now left to the membership as to whether or not we can continue, as the remaining active members are too few in number to carry out, and unless general interest can be revived we will be compelled to disband. Will everyone interested, whether a member or not, keep the date of our next meeting in mind, and make an effort to attend and give their views on the present situation of our local

Juniors Shine at Hockey

Jimmy Brennan has organized a number of schoolboys who promise to develop into good hockey players, and from 52 boys has selected the best players to make two teams. On Thursday Coleman Midgets were defeated by Blairmore Longfellow's at Blairmore, score 2-1. Billy Fraser scored for Coleman. Boh Pattinson, also a budding right wing man, showed up good. Tony DeCocco as goalkeeper played a wonderful game and drew considerable applause.

The trainer of these boys states that in time they will be Coleman's senior hockey players and a little public support will go a long way in keeping the boys together.

'Yeomen of England'

Westminster Glee Singers Bring
Atmosphere of Merrie England
Across the Seas

One of Canada's leading musical critics writes as follows, regarding the Westminster Glee Singers:

This world famous organization of singers and entertainers brings with it something more than a mere interpretation of musical compositions or singing numbers; they are at the same time the admirable exponents and fruitage of a virile civilization and culture that has been a thousand years in the ripening. The sea that has always been England's pride, cutting her off from the rest of Europe, threw her back upon her own resources in music as in other activities of her splendid isolation, until out of the traditional practice of glees and madrigals as a pastime she has emerged supreme in the art of choral singing.

To attempt a description or criticism of this musical treat would involve the employment of superlatives of praise and appreciation beyond the skill of an ordinary critic. Only those who hear them can imagine the wonderful harmony, the matchless delicacy of nuance and tone color that find expression in the long programme. In solo singing, in quartettes and in the fine ensemble of the whole company, the highest degree of artistry is attained.

An extensive repertoire that includes every class of vocal composition provides a medium for entertainment that leaves nothing to be desired. Classical numbers, national airs, old ballads, Folk songs, the works of masters interspersed with the songs that grew from the hearts of humbler unknown poets, are lavishly submitted in rich profusion to delighted audiences whose enthusiastic appreciation is as much a tribute to their own taste as to the select company of artists who furnish the entertainment. The success of the adventure affords proof of the existence of sufficient taste in this

Music Class Gave Very Fine Program

Some Splendid Selections by Miss
McKrell's Class Denote Ability
in Young Pupils

Miss McKrell's pupils gave a delightful concert last Thursday in St. Alban's parish hall, assisted by Mr. R. Wooton, who is also a pupil, in two well rendered songs. There was a very small attendance. The proceeds went to the funds of the senior W. A.

The programme of pianoforte music was as follows: Duet, "Sault A. Peeth," Alice Hornquist and Mabel Thompson; "Humoresque," Douglas Bevan; Mazurka, Marie Olson; "The Grasshopper," Marcin Burri; Song, "The Old Fashioned Town," R. Wooton; "March in C," Veenredella Packer; "Rustle of Spring," Alice Hornquist; "The Fountain," Virginia Olson; "Spanish Dance," Margaret McDonald; "Waltz," Lillian Packer; song, R. Wooton; "Trauerrei," Belle Flynn; "Shepherd's Love," Leora McDonald; "Caprice," Willie Burrows; "March," Albert Thompson; "Cajun Airman," Allan Short; "Para Mont," Norman Packer; "Morris Dances," Marie Olson and Margaret McDonald.

Fernie Bonspiel To Open Next Monday

Rinks From All Crow Towns and
Lethbridge Will Take Part in
Big Annual Gathering

Jan. 21 will see the opening of the Crow's Nest Pass Bonspiel at Fernie, and local skis are assembling the best players to try and lift some of the valuable trophies and prizes offered for competition.

It is reported that Lethbridge asked for a postponement as there had been so little ice there that the players had not sufficient practice, but Fernie officials were afraid that a mild spell might come along and spoil the ice, therefore it will open on the date set.

While Saskatchewan and Manitoba have recorded from 20 to 30 below zero during the past week, this district has been experiencing temperatures very little below the freezing point, and some days there has been a slight thaw. The fly in the ointment is that such fine open weather cuts down the cash shipments very materially.

country to justify the engagement of similar high class companies that make a real contribution to its culture and advancement in the finer things of life.

Watch for date of this company's appearance in Coleman.

Keen Interest in Local Bonspiel-- Pontiac Cup and Club Competition Finals

The annual bonspiel for the Pontiac Cup and the Coleman Club competition opened on Wednesday and closed this Thursday evening.

Rinks entered were: McBurney, Moores, Boulton, Ledieu and Emmerson, of Coleman; Morgan, Wilson, Olivier, and Congdon, Blairmore; Alexander, Pincher Creek; Emmerson, Curry and Kerr, of Bellevue.

The Pontiac Cup was won by Harry Boulton's rink, playing against Sam Moores, and the Coleman Club's competition was won by Ed. Ledieu's rink against J. Kerr of Passberg.

The matches excited keen interest among local curlers and there was quite a number of spectators throughout the two days of the bonspiel.

The temperature took a sudden dip this Thursday evening, after a prolonged spell of above zero temperature. It was 10 below during the night.

About Ourselves

Scanning the pages of a little farm machinery magazine the other day, the attention of the writer of this column was drawn to a short article headed "About Ourselves," and, like everybody else, being interested in himself, he proceeded to read it. It appeared to him as so human so absolutely true, so worth-while, that he decided to pass it on to the readers of this paper. It was still wider circulation to a message which all would do well to heed. Here is the article:

"We all want the things that we think will make us happy. We want to own things, to know about things, to go places, to do things, to work out ideas, to win the esteem and respect and affection of folks.

"The bigger our wants, the more chances we have of being worth while. The person who cares for nothing amounts to nothing. We begin wanting the day we are born. When we quit wanting, we'll be dead. If we don't want anything, we are hopeless.

If we don't think about our wants, we let little desires crowd out the really big, worth while desires. 'I didn't think,' is the excuse most often given for acting foolishly, recklessly, dangerously, selfishly. Unnecessary accidents and needless griefs follow. Thinking clears the way for restful action. If we don't think, we are reckless and selfish.

In order to make our feelings and thoughts count, we must do something. The more times we get good thoughts backed by strong feeling, and do nothing, the worse off we are. Doing things tests our thinking and our feeling—enables us to do clearer thinking and work out happier things the next time. If we won't work, we are helpless.

A slight change in attitude may make a great change in life; the light of a new idea may point the way to the successful working out of a problem; even when things seem wrong and we can't see clearly, starting to do something may clear the way.

What we feel, what we think, and what we do make us what we are. That's the message. Read it over again. Then, once again, read the last lines: 'What we feel, what we think, and what we do, we are.'

Now read the first sentence again: 'We all want the things that we think will make us happy.'

This article is about ourselves. It is a sort of heart to heart talk, a kind of personal stock-taking at the beginning of a new year. So, let us ask ourselves some pointed questions.

Granted we want to be happy, were we ever happy while thinking mean, uncharitable thoughts about somebody else? Rather, have not our happier moods been those when kindly thoughts of others occupied our minds?

We will find happiness in the esteem, respect and affection of others. There are few of us but desire to be popular. But can we command these things, or do we deserve them, if, on our part, we are entertaining feelings of contempt and hatred for those around us?

We find joy in doing things, but can we expect to accomplish much if we are arrogant in our attitude towards others, if we insist upon always having our own way, if we are intolerant of the views and opinions and convictions of those with whom we are called upon to work?

A person who is always suspicious of others soon becomes the object of general suspicion. Thinking mean thoughts, cultivating uncharitable feelings, doing unwholesome things, may or may not hurt those against whom they are directed, but they most assuredly do hurt the one who indulges in them. They affect his or her whole character. Persisted in they will even leave their indelible mark upon the countenance with the result, that the ugly inner life will be like an open book that all others may read—and shun.

The happiness so much desired is not to be found that way; rather it is the death of it.

Remember: 'What we feel, what we think, and what we do, we are.'

Gave Service Gratuitously

Colorado Doctor Labored For 25 Years Making No Charge For Medical Attention

Dr. B. A. Arbogast, the "hermit physician" of the rough, mountainous country west of Craig, Colorado, died of poverty recently, after a career devoted solely to gratuitous service of his fellow men.

For 25 years Dr. Arbogast has been the physician in a rugged cattle country, which embraced 100 square miles surrounding the little cabin where he lived alone. He ministered to the ills and hurts of cowboys, homesteaders, cattlemen—and made no charge for his services.

Forty new school districts were established in Alberta in the first nine months of 1928—making a grand total of about 3,500 in the province.

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

Progress In Aviation

Over 300 Airplanes Now Operating In Canada

On January 1, 1929, there were 333 aeroplanes in operation, of more than three times the total a year ago, according to a survey of Canada made by the bureau of statistics.

There are at present 44 air harbors in Canada, as compared with 25 last year. Licenses held by commercial pilots at the first of the year numbered 190, nearly five times the number on the comparative date. Activity in the north has been largely responsible for the rapid progress in aviation.

Hockey players use Minard's Liniment.

Stockings were invented in the eleventh century, but weren't discovered until the twentieth.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

Help British Unemployed

Canadian Fund Opened By a Toronto Newspaper For Relief Of Miners
An indication of the interest which has been aroused in Canada of the plight of the British unemployed, particularly the miners and their families, is given by the response to a fund for their relief, opened by a Toronto newspaper. The fund, the first of its kind opened in Toronto has received the endorsement of Hon. D. C. Ross, lieutenant-governor of the province, and leaders in every section of the industrial, political and religious life of the city.

INFLUENZA'S VICTIMS

Left Weak, Miserable and a Prey To Disease In Many Forms

One of the most treacherous diseases afflicting the people of Canada during the winter months is influenza. It almost invariably ends with a complication of troubles. Its victims suffer with aches and pains, chills, headaches and backaches. It leaves them an easy prey to bronchitis, pneumonia, and other diseases. It leaves the victim a chronic invalid. You can avoid influenza entirely by keeping the blood rich and red by the use of Dr. Williams' Pink Pills. If you have not done this and the disease attacks you, you can banish its deadly after effects through the use of this grand old blood-building, nerve-restoring tonic.

Here is proof of the power of Dr. Williams' Pink Pills for this trouble. Mr. F. H. McMullen, Belleville, Ont., says: "Some years ago, following a severe attack of influenza, I was left in such a weak condition that my friends thought I would not get better. I developed nervous indigestion, and my blood got thin and watery. In this weakened condition I began the use of Dr. Williams' Pink Pills, and these pills and the medicine had failed to do—brought me back to health and strength. I can honestly say I think I owe the best blood builder and nerve tonic known, and I shall always praise them."

You can get the pills from your druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Unique Method Of Testing Farm Seeds

Virginia Department Of Agriculture Controls Temperature Of Artificial Spring

A method of simulating spring artificially in a modern version of the old family ice box was described at New York before the Association of Official Seed Analysts.

It is used for testing the germination of farm seeds at the Virginia Department of Agriculture, and Irrigation, Richmond. By a specially prepared chamber and an artificial soil, controlled temperatures are obtained over test seeds planted in special soil boxes.

Even the breezes of spring, so far as they are useful to the fields of farmers, are preserved through the action of cold water running through an apparatus and providing the air purification that takes place in open fields.

Spring's sunshine is reproduced in effect through an electric heater, its emanations being distributed from beneath a covering of water.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Worth Finding Out

Dr. F. G. Banting is now experimenting with "royal jelly," the food which the bees feed to develop the queen bee. Some apostles think that this stuff, which is said to prolong the life of the queen bee for several years, may have some merit as a food for human beings. It is being trying to find out just what it is composed of.

Greatest Swiss Avalanche

The greatest of Swiss avalanches occurred a century ago when five million tons of ice fell from the Aletsch glacier at a speed of three hundred miles an hour from a height of five thousand feet. Ice fragments were flung fifteen hundred feet up the opposite mountain side.

Lawyer (noted for high fees)—I trust you profited by my advice.
Client—"Yes, but not so much as you did."

For frostbite use Minard's Liniment.

Teacher—"Now, James, name America's greatest general."
James (the son of a broker)—"General Motors."

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

Scott's Emulsion

is the easy and pleasant way to exact the most out of cod-liver oil to reinforce your body with strength to build resistance.

Scott & Bowne, Toronto, Ont. 25-3

Baron Munchausen

Never Told These

Inquiring Guests Add To Wonders Of Jasper Park

"The Equator," said the youngest, writing his examinations, "is a menagerie lion running around the earth's 'Scholastic' highways are always rich in humor. But the howlers are not always made by school-boys.

Last summer a lady came up to the transportation desk in Jasper Park Lodge to inquire about the motor trip to Mount Edith Cavell and the Angel Glacier. She was very anxious to miss nothing of the wonders of the mountains. "When," she asked, "does the Glacier spout?"

"Then there was the lady who thought that the Lodge would be very pretty when it was finished, when the walls were plastered and lalmsomed. That the great peeled logs, well chinked and cunningly fitted together, were meant to be as they were, never entered her consciousness. She knew nothing of the beauty of mountain architecture.

The prize, however, goes to the lady who was discussing the wild life of the park with one of the wardens.

"The goats and the sheep are the same species, are they not?" she asked innocently. "Which are the males?"

"Oh, the goats, madam," said the warden, without batting an eyelash.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Soviets Plan Subway

Samuel R. Rosoff, subway contractor, has confirmed reports that Russian Soviet Government is planning construction of a subway and waterworks to cost about \$155,000 for the city of Moscow, and which may be built and financed by Americans.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple and strong remedy—Mother Graves' Worm Expeller.

Graceville, Fla., annually ships more watermelons than any other point in the world.

Wool Returns Much higher

Last Year's Final Payment To B.C. Sheepmen Totalled \$35,000

Between 500 and 600 sheepmen throughout British Columbia received a worth-while Christmas present a week before the festive season when the final payment was made on the 1928 wool clip by the British Columbia Wool Growers' Association. This final payment represented a total of \$35,000. The total amount paid out by the year's clip was \$108,587, payment being made at 31.88 cents per pound, as compared with 24.9 cents last year, an increase of 28 per cent. The 1928 wool shipments by the provincial association to the Canadian Co-operative Wool Growers' Ltd., at Weston, Ont., were 343,749 lbs., as compared with 205,500 lbs. in 1927, when the total amount paid out was only \$51,179.

Sore Corns Drop Off

If You USE "Putnam's"

When you notice any sign of callosities on the feet or toes—that's the time to put on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Scarcity Of Seed Oats

Alberta Farmers Are Advised To Arrange For Necessary Supply Early In Season

Farmers throughout the province of Alberta are being advised by the provincial department of agriculture to make the necessary provision for securing the supply of oats for seed, which they will require for their 1929 crop. The effects of frost in a number of districts are reflected in reduction in the germinating quality of a great many of the oats threshed and in a number of cases, supplies of oats suitable for seed will have to be shipped in. Elevator companies have expressed their willingness to assist in the distribution of good seed, and farmers are advised to communicate with their local elevator agents as early as possible in order to obviate the possibility of a scarcity occurring during the seeding season.

Miller's Worm Powders attack worms in the stomach and intestines. Put them in your mouth and can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have been tested their power in hundreds of cases and at all times are thoroughly trustworthy.

It is said sharks do not attack humans. Then as far as we are concerned, there will be no fight.

Some men take good care of an automobile; others treat it like one of the family.

Science can explain almost everything except why the static is always much stronger when the radio is being shown off to visitors.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

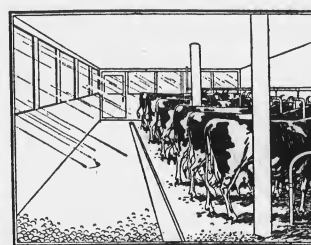

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer. It gives us strength and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their stables.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increased egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light last strong window glass, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs. while a square yard of glass of ordinary weight weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100 % Sunlight Send for booklet "WINDOLITE"

ARRANGING FOR 6,000 BRITISHERS FOR FARM WORK

Ottawa—Arrangements have been completed by the Department of Immigration to place in farm employment in Canada 6,000, British-trained immigrants which is the maximum number that will be available before the end of July. The department will assist in placing as many as possible of any to whom want farm work and come to Canada on the new \$50 rate.

This was announced by W. J. Egan, deputy minister of immigration, in making public a letter to the railway companies.

The deputy minister explained to the railway companies that it had been the experience of the department during the past three years that not more than 30 per cent. of the alleged farm laborers brought from non-preferred countries actually stayed on the land.

Unquestionably there was a very strong feeling against the unduly large proportion of foreign as compared with British immigrants shown in the immigration statistics for the last few years, the letter set forth, and the movement of the railways agreement was largely responsible for this condition.

The restrictions, however, do not apply in any way to the movement of central European agricultural families coming to Canada for land settlement, nor to the movement of house workers who are coming under proper arrangements for their protection.

The province of Alberta had made representations to the department that while they are anxious to secure a supply of British farm labor and also a supply from preferred countries, they already have in the province all the non-preferred country immigrants they require for farm work this year. In view of this situation the department will endeavor to carry out Alberta's wishes and the province is being no advised.

Death Of Senator Ross

Conservative Party Leader in Senate Passes Away

Quebec, Ont.—Senator William Benjamin Ross, Conservative party leader in the Senate for the past two years, died in Hiramwood sanatorium, where he had been a patient for two months. He was 74 years old.

Sensor Ross succeeded to the leadership of the Conservative party in the Upper House in June, 1926. He had been a member of the Senate since 1912.

In 1881 Senator Ross went to Regina and practiced law there. Among his clients was Gabriel Dumont, the rebel, an associate of Louis Riel.

Later he came back to Halifax and went into partnership with Robert Sedgwick, afterwards a deputy minister of justice and later a judge of the supreme court of Canada. Later he became connected with several other law firms.

Ship Huskies To Byrd

Dogs Required For Pole Exploration Have Left Vancouver

Vancouver—When the R. M. S. Niagara sailed from Vancouver, January 9, for New Zealand and Australian ports she carried 15 young husky dogs for Commander Byrd's Antarctic expedition. The dogs have been housed at the Grouse Mountain kennels here.

The dogs must reach Dunedin, N.Z., by February 7, in time to be forwarded by the steamer Ellnor Bolling for the Antarctic base on the edge of the great ice barrier. E. J. Farr, agent for the White Pass and Yukon Railways, has completed all arrangements for the shipment in response to a recent request by Commander Byrd. It is stated.

Succeeds To Earldom

Alberta Farmer Is Now the 10th Earl Of Egmout

London—Charles John Percival, 6th Earl of Egmout, died recently. Frederick Joseph Trevelyan Percival, a distant relative, who resides at Friddis, Alberta, succeeds to the title.

The ninth Earl of Egmout was a widower without children or near relatives. His successor is the great-grand-son of the Second Earl of Egmout. The earldom was created in 1753.

W. N. U. 1758

Harvest Help Influx

Hon. Peter Heenan Explains Why Harvesters Were Brought From Britain

Ottawa, Ont.—A total of 75,000 harvesters were needed in western Canada harvest fields last year and as no assurance was forthcoming from the eastern provinces that they would supply 44,000 to add to the west's available 31,000, the federal government was obliged to appeal to Great Britain for men and as a result the minister-harvester scheme was brought about. This was the explanation of the influx of British harvesters last year to help garner western Canada's wheat crop, given by Hon. Peter Heenan to the labor delegation which presented its legislation program to the federal cabinet.

The federal government had to protect itself, Mr. Heenan explained and as the eastern provinces could not assure the government of 44,000 harvesters, it was decided to bring ten thousand Britishers to help in the harvest fields.

The estimated requirement of 75,000 was made by a committee which investigated the harvesting conditions.

German Report Shows Gold Reserves Increase

Reichsbank Vaults Contain Twice As Much As Before War

Berlin.—Five years after the stabilization of the German Reichsmark the vaults of the Reichsbank contain more than twice as much gold as before the world war.

At the beginning of December the Reichsbank reserves showed a total of 2,650,000,000 marks worth of gold, while on December 31, 1923, the Reichsbank had only the equivalent of 1,270,000,000 marks in gold. Since 1924 the gold of the Reichsbank show a constant increase, 1928 being a record year with acquisitions of gold amounting to 737,000,000 marks until the end of the first week of December.

During the years 1924, 1925, 1926 and 1927, the Reichsbank has bought up gold amounting to 235,000,000, 415,000,000, 377,000,000 and 34,000,000 marks respectively.

Japanese Stage Revolt

Assistance Of Infantry Required By Police To Control Peasants

Tokyo.—Three companies of regular infantry were rushed to Yamori, a village near Fuji, when Japan's smouldering rural unrest flared up momentarily.

Two thousand peasants marched in a body on the local government offices and 300 police were unable to control them. Fighting ensued with casualties on both sides and the troops were called.

The peasants were protesting against a government riparian project which they claim would flood hundreds of acres of paddy (rice) fields.

It was officially reported that the peasants were still gathering in the neighborhood districts and arming with bamboo spears.

To Broadcast British Campaign Speeches

Broadcasting Debate Between Party Leaders Is Also Proposed

London, Eng.—Radio will play a big part in the political speech making of the coming general election campaign. Addresses by Hon. Neville Chamberlain, at Liverpool, on January 13, and Premier Stanley Baldwin, at Newcastle, on January 24, will both be relayed throughout the country. A proposal to broadcast a debate between the leaders of the three parties on the de-rating bill has been accepted by the Labor party, and it is expected the Conservatives and Liberals will fall in line.

Joins Governor's Staff

Ottawa—Arrival of Captain R. J. Streathfield from London, Eng., to join the personal staff of H. E. Mackenzie the Governor-General has been announced from Government House. Captain Streathfield is a nephew of Col. H. Streathfield, who was secretary to Lord Lansdowne, when the latter was appointed governor-general of Canada.

Expect Increased Migration

Liverpool, Eng.—Authorities, both British and Canadian, expect heavily increased migration of British farm settlers to Canada in the spring. Negotiations are under way between the two governments to understand, looking to the movement of 6,000 trained and working trained men to farm work in April.

Test Saskatchewan Seed

Seed Testing Laboratory Is Established At Saskatoon

Saskatoon.—Saskatchewan seeds will in future be tested in the laboratory of the Dominion Seed Branch of the federal department of agriculture which is being put into operation in rooms occupied by this department here, according to a statement given out recently.

Preparations for opening this laboratory and offices have been under way since December. In all about 3,000 feet of floor space will be occupied.

Nelson Young, of Winnipeg, acting district inspector for the whole district of Saskatchewan will be in charge. Dr. F. T. Wahlen, chief seed analyst of Ottawa, head of all laboratory work in Canada, is here in connection with the opening of the laboratory.

Science Aids Farming

Soon Be Able To Develop Wheat That Will Resist Both Rust And Frost

Ottawa.—Within the next few years Canadian experts will have developed scientific means to resist both frost and rust in the great new Peace River fields, Hon. W. R. Motherwell, member of agriculture, said when addressing the first day's session of the eastern Canada Fruit and Vegetable Jobbers' Association here.

"Canada is a great new country," said the minister. He meant, he explained, that no matter what conditions of one time were Canadian people had a habit of pinning their faith upon the future and working wholeheartedly for the prosperity of tomorrow.

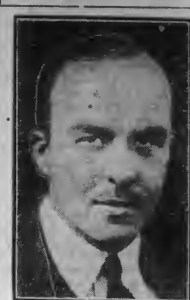

NEW PICTORIAL STAMP ISSUES NOW ON SALE

Ottawa.—Canada's new pictorial stamp issue is completed and the four larger denominations are now on sale. The stamps are stated by post office officials to be regarded by philatelists as the finest produced in any country.

Each section of Canada is represented. The one-dollar stamp carries a picture of the parliament buildings and is significant of the central part of the country. For the maritimes the 50-cent denomination shows the schooner, Bluenose, winning the international fishermen's race. The Quebec bridge appears on the 12-cent stamp. The prairies are typified in the 20-cent stamp by a picture of a wheat field. The ten-cent stamp bears a representation of a mountain in British Columbia with totem poles on the border.

The larger denominations carry the king's head. All numerals are larger than in previous issues. The stamps are stated to be among the finest examples of the engraver's art. Under the microscope the windows in the parliament buildings may be counted and figures of horses in the British Columbia stamp, smaller than a pin head, are replete with detail.

PREDICTS POLITICAL CRISIS

Arthur Beverley Baxter, the Canadian who is managing editor of the Daily Express, London, who has cheerfully put it, by announcing that Beaverbrook is prepared to go to the mat with the die-hard political parties in Britain in order to effect an empire-wide tariff. Baxter, who made the announcement during his present visit in Canada, predicts that Beaverbrook's action will result in one of the greatest political crises in British history.

Boost Automobile Insurance

Report States Rates Throughout Canada Are To Be Increased

Toronto.—Automobile insurance rates throughout Canada are to be increased sharply—as much as 50 per cent. for legal liability and as much as 25 per cent. for collision, it was announced here recently, following a meeting of the Canadian Automobile Insurance Underwriters' Association. The increase will be graded to differentiate between urban and rural areas.

It was stated that the ground-up into the increased rates would be put into effect were that business under present conditions was unprofitable and that Canadian rates are lower than those prevailing in the United States.

It was announced that after a survey of present rates at the meeting, it was decided that "adjustments were imperative."

McLean To Receive Eight Thousand Yearly

New Post Carries Salary Of A Deputy Minister

Ottawa.—Hon. J. D. McLean, former premier of British Columbia, and newly appointed farm loan commissioner, is in conference with departmental officials here and beginning the preliminary work of organizing the rural credits system.

Mr. McLean will be paid \$8,000 per year, the salary of a deputy minister. Two other members of a farm loan board who will serve part time, will shortly be appointed.

Earthquake In Turkey

Constantinople.—A violent earthquake accompanied by a terrifying subterranean roar occurred at Angora recently. No accident to life or property was reported.

Dog Days of Quebec

There was great consternation in the canine world a few days ago when it was decreed that no dogs in Quebec must roam the streets of Quebec. There was a rumour that the great classic, the Eastern-International Dog Bled Derby, was to be cancelled, that the Chateau team was to be banished from the terrace—all sorts of horrible rumours; but as afterwards developed, the edict was not directed against any other dogs, the HUSKY who, with a dog he may, or may not, be able to control,

dodges under the horses' hoofs and car wheels, thus endangering his own life and others, including that of his dog.

So once again "Mountie" veteran Mounted Police dog, will, as leader of the Chateau Frontenac team, wag his tail as the winter tourist pats his head. And the Dog Derby is on February 21, 22, 23. One hundred and twenty miles in three laps, with, perhaps, men whose names were famous last year—St. Gaudard, Seppala, Chevette and Dupuis.

Visualizes Conditions Ideal

Henry Ford Says Farming Needs To Be Completely Revolutionized

New York.—A world in which no one smokes or discusses prohibition, where farmers no longer farm and housekeepers no longer cook, and machines take care of the drudgery is outlined by Henry Ford in his book, "My Philosophy of Industry," just published.

"The great problem in the home today," the Detroit capitalist points out, "is too much drudgery. We shall soon find a way to do much of the cooking outside and deliver it in a hot and appetizing condition at meal time at no greater cost."

The old farm is likewise due to a big change, according to Mr. Ford. "Farming needs to be completely revolutionized," he says. "Large corporations, whose sole business it will be to perform the operations of plowing, planting, cultivating and harvesting, will supersede the individual farmer, or groups of farmers will combine to perform their work in a wholesale manner. This is the proper way to do it and the only one in which economic freedom can be won."

New Directors Elected

Aberdeen-Angus Association Announces Appointments For This Year

Brandon.—The election of directors for 1929 of the Canadian Aberdeen-Angus Association, has been announced by the secretary, F. W. Crawford, as follows:

For Ontario and other eastern provinces, John Lowe, Elora, Ont.; James Bowman, Guelph, Ont.; Col. R. McEwen, London, Ont.; Manitoba—Harry Leader, Burnside; J. H. McGregor, Brandon, Saskatchewan—U. D. Lyon, Devon; W. J. F. Warren, Bellevue.

Alberta—F. H. Reed, Lacombe; S. J. Henderson, Lacombe; Charles Elliott, South Edmonton.

New Airplanes Ordered

Five Are Especially Equipped For Patrol In Alberta

Ottawa.—Fourteen new Moth planes were ordered by the Department of National Defence for distribution among flying clubs in Eastern Canada and for forest patrol work out of High River, Alta., air station. The order involves more than \$90,000.

The order calls for five machines especially equipped with radio sets, added fuel carrying capacity and special navigation instruments for the difficult patrol in Alberta, where it is necessary for pilots to make long flights at high altitude.

Report Is Denied

Ottawa.—The Canada-United States anti-smuggling conference recently issued a denial of statements appearing in a morning paper that the Dominion will not accede to the request of the American delegation for refusing of clearance to liquor cargoes for the U.S.

Detentions Inspector Resigns

Waukegan.—Resignation of A. L. F. Edwards, a British subject, as inspector general of Chinese customs has been accepted, Deputy Inspector F. W. Mace was appointed to succeed Mr. Edwards who resigned as a protest against dual control of customs.

MAY RESTRICT MIGRANTS FROM CERTAIN AREAS

Ottawa.—It is reported here that Hon. Robt. Forke, Minister of Immigration, is planning to restrict immigration from Central and Southeastern Europe. The information is supposed to have been conveyed in telegrams from the minister, who is in the west, to Ottawa.

W. J. Egan, deputy minister, stated that he had received no such telegraphic communication from Mr. Forke.

The report suggested that the government would decline to renew the conventional agreement of the railways, which expires in October, 1930. This agreement enables the Canadian National and Canadian Pacific Railways to bring agricultural and domestic workers from these countries to Canada if they are suitable from a physical and mental standpoint. This agreement is subject to cancellation at any time on one year's notice, or can be suspended by order of the minister of labor if labor conditions here warrant it.

MAY HAVE TO ARBITRATE ON BRANCH LINES

Ottawa.—The official announcement of the C.P.R. branch line program which is to be submitted to Parliament is taken here as meaning that attempts to remove conflict between the two railway companies have failed of success and that parliament will be compelled to arbitrate between them.

In the official list of branch lines, for which the C.P.R. will seek charters from Parliament are several which will be contested by the Canadian National Railways on the grounds that they invade Canadian National territory. The extent of the conflict will not be revealed until the Canadian National branch line program is announced. This program, it is understood, has not yet been formulated but undoubtedly it will be very large and will cover lines in much of the territory being sought by the C.P.R.

The Canadian National Railways will ask for a charter to build a branch line connecting Saskatoon and Melfort. They already have a line started there running north from Vonda. In 1924 the National Railways asked for the right to build such a line, but their bill was killed in the senate. This territory is one in which the acute cost controversy occurs between the railway companies.

Winnipeg.—An era of expansion involving construction of approximately 1,200 miles of track into virgin country in Western Canada at a cost of not less than fifty million dollars is forecasted by the application of the Canadian Pacific Railway for new lines. This will mean employment of many thousands of men extending over a period of five years, it is understood.

National Resources Question

No Statement By Premier King In Respect To Province Of Alberta

Ottawa.—Premier Mackenzie King has not yet issued any statement with respect to the return of the natural resources to the province of Alberta, and it seems doubtful whether he will discuss the matter until definite agreement is reached.

When Premier Brownlee was last in Ottawa, it was understood that a tentative arrangement had been arrived at, but that it would be discussed further in correspondence between the two governments. A despatch from Edmonton outlining what is said to be a new offer by the Dominion indicates that this correspondence is proceeding. The prime minister, however, has made no announcement as yet.

Reach Flin Flon By Auto

This Means Of Transportation A Success During Winter

The Pas, Man.—For the first time in the history of Northern Manitoba, automobiles are being used this winter as a means of transportation over the trails and lakes between The Pas and Flin Flon, a distance of 400 miles.

Jim Reid, a well-known mining man, started out for Flin Flon via Sturgeon Landing and word was received here that he had reached the landing. Two other parties started out on the same trip a little later. Automobiles are running day between Cranberry Portage and Cold Lake as well as aeroplanes, tractors, and snowmobiles.

Plans Non-Stop World Flight

Goebel Will Attempt It If Financial Backing Is Assured

Wichita, Kansas.—A non-stop 24,000 mile around-the-world aeroplane flight is the next objective of Arthur Goebel, of Wichita, winner of the Dole flight to Honolulu.

The flight will be attempted as soon as preparations can be completed and financial backing assured. Goebel said in revealing his next endurance flight.

Endangered Many Lives

Montreal.—Five minutes before the opening of the morning classes of St. Edward School here recently, a stick of dynamite was found under the teacher's desk. A boy who admitted the deed, was charged in juvenile police court with endangering the lives of 500 people.

Would Create New Department

Ottawa.—Creation of a Federal ministry of fisheries will be sought by a delegation from the Canadian Fisheries Association when it waits upon the Premier in the near future.

NOTES AND COMMENTS

Though man's knowledge in the field of science and invention has made wonderful strides, yet how small it appears when compared with the wondrous works of nature, and how puny his efforts are. When one stops to ponder these things, even though admitting that man has devised many things that have made life far more pleasant and has invented machines which have eliminated a great deal of laborious work and manual labor, yet the wondrous works of Nature surpass them all.

Gossiping is a natural habit with most people. It is harmless as long as it does not slander or reflect on the reputation of others, but too often a gossip-monger is quite glad to seize on something shady and re-tell it to others, who in turn pass it along, and it gathers many trimmings as it rolls until the first story is hardly recognizable. Then there is the fault of exaggeration which so many are prone to. Somebody may have been injured, and in the excitement of the first break of the news, a minor accident is exaggerated into almost a catastrophe. This week a man was injured in a logging camp, and very soon after there was a story going the rounds that his head had been cut clean off, even after the doctor had been advised of the injury. A short time ago when a fatality occurred at the mine, for a few hours all sorts of wild stories were afloat, exciting people's minds. The great fault is that too many hear a half-baked story and without waiting to ascertain the truth, pass it along and as it travels, like a snowball, it gathers more to it. It is a great indoor sport which gives a feeling of exhilaration to many.

To do a fair day's work you must be up in good time in the morning and work steadily throughout the day. Time lost in the morning is impossible to make up by hurrying through the day, for something has to suffer. Maybe some will say that is the reason The Journal has been late in publication during the past two weeks. There may be some truth to it, but as the editor has tried to handle one or two other things outside of newspaper duties, we have a good reason to explain the delay.

There are more fellows on the side-lines who know how to play hockey than the men on the ice do—at least they think they do. The advice handed out is of the same value that most other stuff is, that can be obtained for nothing.

Here and There

(214) For the first time in history, an airplane has been carrying furs from the wilds of Northern Manitoba to the Winnipeg market. Hollick Kenyon, aviator, left Cranberry Portage for Brockton settlement recently, taking Del Symonds, veteran trader, whose aim was to beat all competitors who take a month to travel by dog team.

During 1928 between 5,000 and 5,700 Prince Edward Island furs have been shipped abroad, an increase over the 4,250 shipped the preceding year. These have been handled without a single known casualty. Since the middle of October furs have been shipped to Norway, Sweden, Scotland, Germany, Czechoslovakia, Bavaria, Finland, France, Holland, Switzerland and Japan.

Forty-two years of service with the Canadian Pacific Railway without having broken any of the company's rules or otherwise earned a mark against himself is the unique record held by Arthur W. Savage, engineer, who has just retired on pension. Mr. Savage, who is well known throughout the Eastern Townships, first rode the train that laid the first steel on the line between Sherbrooke and Farnham.

The old English Yuletide Festival held recently at the Empress Hotel in Victoria, B.C., proved to be one of the most popular events of last year. Carols and yuletide music were rendered, the ancient "Chester Mystery" staged, and Dickens' "Mrs. Wardle's Christmas Party" was produced. The festival culminated in a ball at which some seven hundred persons attended. It is believed that plans are already being made for a larger and better celebration next year.

A change in telephone numbers has drawn attention to the train inquiry office in the great Windsor Street Station of the Canadian Pacific Railway in Montreal. The girls who are on duty there handle such an average of 200 calls an hour, and as many as 300 an hour during rush times. They carry most of the information in their heads and seldom have to refer to a time-table. They are asked queer questions sometimes. Recently someone asked, "When does the afternoon begin," and the old poser turned up, "What time does the four o'clock train leave."

Dr. Knechtel, a farmer residing about four miles east of Souris-Manitoba, has about 6,000 bushels of Reward wheat which he is going to ship out all over Western Canada in two-bushel lots, as soon as the list of addresses arrives from Ottawa—for the project is under the supervision of the Dominion Government. As is pretty generally known, Reward wheat matures about a week earlier than Marquis and, for this reason, can be grown further north. This early ripening means, roughly, that a new strip of country 75 by 1,000 miles, is made available for wheat growing.

Snowshoe week in Quebec got away to a good start when several thousand members of the Riquette Club paraded the streets of the old city and later some 1,300 snowshoers in full winter festival costume made an attack on the walls defended by the garrison and illuminated by a brilliant fireworks display. The chief center of interest there is the International Dog Derby, which is to be staged shortly and for this, visitors from the entire Dominion and the United States are flocking to Quebec, taking the Chateau Frontenac to its full capacity. Personal and Local

W. A. Vaughn, of Blairmore, representative of the Western Canada Wholesale Company, Fernie, returned Saturday morning from a very pleasant visit in Nova Scotia. He will reside with his son, who is staying in Blairmore at present.

Mr. and Mrs. Hunnel are moving into the house next to the hospital, which has been completely renovated and improved. It is expected that the residence planned for them in Parkview will be erected in the spring.

A survey of current publications places the Family Herald and Weekly Star of Montreal in the lead for variety and quality of reading. Always recognized as a steady guide and counselor to the farmer, the survey proclaims it almost as equally popular in urban homes.

At the whist drive and dance held in the K. of P. hall on Saturday, Jan. 12, 19 tables were in play, the prize winners being: Miss N. Gillespie, H. Kysackers, L. Carol and H. Hill, jr. After the whist everyone enjoyed dancing to the fine music played by Mrs. Salts three piece orchestra.

The director of "Wings," who with this production made a lasting fame for himself, was William A. Wellman. He, himself, was a bold "knight of the air," serving in the Lafayette Escadrille of France during the World war. He knew the air, the airmen and the airplanes and he has placed them on the screen.

Star Creek Fox Ranch west of Coleman recently purchased the site of the championship fox of Western Canada exhibited recently at Calgary, and valued at over \$1,000. There are now 50 foxes on the ranch, and its ideal location so well sheltered makes it particularly favorable for raising foxes.

A surprise party was held on Wednesday evening at the home of Mrs. Adam Walker, Sixth street, in honor of Miss Maude White, who leaves this week for her home in Edmonton, after living in Coleman for a year. Fourteen were present and whist was played. Miss White was presented by her friends with a fine picture of Crow's Nest mountain as a souvenir of her residence here, and the evening terminated with a very nice supper.

Sun Life Policyholders To Receive Special Bonus

In addition to regular dividends in 1929 of approximately \$17,500,000

Office of the President,
MONTREAL, January 8, 1929

To Our Policyholders:

We have just completed another wonderful year, with profit earnings never before equalled. Our Directors have therefore inaugurated the principle of allowing a Special Bonus on maturing participating policies. The basis for 1929 may be summarized as follows:

On policies ten years in force, maturing by death or (on "reserve dividend" policies) by the expiry of the reserve dividend period, a bonus of 10 per cent of the reserve, increasing yearly to 15 per cent on policies in force twenty years or longer; on endowments, at maturity, a bonus of 10 per cent of the face value of policies ten years in force, increasing yearly to 15 per cent on policies in force twenty years or longer.

Details will be given in the forthcoming annual report.

This special bonus is in addition to, and independent of, the usual annual profit distribution, the scale for which, for the ninth consecutive year, will again be increased.

We congratulate our members on this happy announcement. It has been made possible only by the large profits earned on the securities selected for the investment of the Company's funds.

As ninety-five per cent of all surplus earned by the participating assurances accrues to our policyholders themselves, they enjoy practical mutuality, combined with the enterprise and stability of stock management. The effect of this combination is evidenced by the results.

T. B. Macaulay,
President.

WORLD HAPPENINGS BRIEFLY TOLD

A Toronto newspaper opened a fund for the relief of the British unemployed, particularly the miners and their families.

Units of insulin to the number of 1,128,600, costing \$4,500, were issued by the Ontario Department of Health during last November.

Representatives of the salmon industry of British Columbia estimate that this year's pack will be worth more than \$14,000,000 as compared with \$12,000,000 in 1927.

Major Carl Spatz and his Question Mark crew probably will be awarded Distinguished Flying Crosses for their endurance feat of 150 hours and 40 minutes non-stop flying.

England's oldest resident, William Walker, celebrated his 107th birthday recently. He received a presentation from the lord mayor of Nottingham. He was a bricklayer until he retired 25 years ago.

Howard Douglas, pioneer western Canadian, chief motion picture censor of Alberta for 13 years, and a former superintendent of Banff National Park, died at his home in Edmonton, at the age of 78 years.

The completion of the laying of steel into Churchill, the terminus of the Hudson Bay railway, will be marked by a celebration on a grand scale. It is announced. Plans will be formulated when the end of the work is in sight.

When the agreement with the transportation companies in regard to continental European immigrants expires in 1930 it will not be renewed. In the meantime immigration officials say they will restrict this immigration as far as possible.

A commission appointed to study the possibility of building a tunnel under the Straits of Gibraltar has returned to Madrid with a favorable report. The cost of the tunnel was estimated at 300,000,000 pesetas (approximately \$16,000,000). The tunnel itself would be 20 miles long.

To Check Outlawry

Detroit Policemen To Receive Bounty For Killing Criminals Caught In Act

Hereafter Detroit policemen who shoot and kill a criminal caught in commission of a crime will be paid a bounty of \$10, according to Police Commissioner Rutledge, who explained that the move was designed to check further outlawry.

The first presentation was made to Patrolman Arthur Underman, and Gerald McCauley, who on Jan. 3rd were forced to kill a negro when he resisted arrest.

John L. Pilgrim, a London woolen merchant, completed his 150th crossing of the Atlantic when he arrived at Liverpool in the White Star liner "Baltic."

"We stand back of every auto we sell," says an ad. Fine! The front is the dangerous end.

"Marlatt's Treatment"

INTESTINAL flu, high blood pressure, nervous disorders, how careful one must be to avoid these dangerous ailments at this time of the year.

Keep the system clear of poisons and impurities. Tone up the liver, prevent bile stagnation and intestinal lethargy. Let Marlatt's help you as it helps thousands every year to ward off illness and disease.

Canadians Are Meat Eaters

Per Capita Consumption Exceeded By Only Three Other Countries

In cattle holdings Canada ranks twelfth among the countries of the world. There are eight countries with more swine than Canada and apparently twenty with more sheep and lambs. The Dominion is exceeded in meat consumption only by Argentina, New Zealand and Australia, the per capita consumption of these countries being respectively 346.5 lbs., 311.6 lbs., and 227.2 lbs., against Canada's 196.3 lbs. The United Kingdom, 127.2 lbs., France, 115.0 lbs., Germany, 104.2 lbs., Denmark, 100.9 lbs., and Belgium 71.1 lbs. Canada's per capita meat consumption is made up of 68.3 lbs. of beef, having increased to this from 60.9 lbs. in 1910; 81.4 lbs. of pork against 66.7 lbs. in 1910; 6.1 lbs. of mutton and lamb, as compared with 8.7 lbs. in 1910; the total of 156.3 lbs. comparing with 136.3 lbs. in the former year.

A PROBLEM FOR YOUNG MOTHERS

Stomach troubles cause most of the distress of babyhood and childhood, and are the greatest problem that a young mother has to solve. The treatment for these digestive disturbances that disturb her sleep must be quick and effective, and, above all, perfectly safe.

The absolute safe treatment for disturbances of the stomach and bowels is found in Baby's Own Tablets. Thousands of mothers have had their problem solved through them. They are guaranteed to be free from all injurious drugs and cannot possibly do harm to even the youngest babe—they always do good.

Baby's Own Tablets regulate the stomach and bowels, banish constipation and indigestion; break up colds and simple fevers and promote that health-giving sleep which is so necessary to the welfare of the baby or growing child. The Tablets are sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Anxious To Protect Canadian Fishermen

Regulations Aim To Prevent U.S. Fishermen Selling In Canadian Ports

Possible International conference regarding the fishing treaty between Canada and the United States may come as a direct result of the allegation made by Oregon and Washington fishermen of treaty violations on the part of the Dominion on the Pacific Coast which have been forwarded from Seattle to Washington, D.C., and to Canadian Government officials.

The department of Marine and Fisheries has issued the following statement: "There is no desire on the part of Canadian authorities to restrict in any way the privileges of which U.S. salmon trolling boats are entitled in Canadian ports, but when these boats are carrying on their fishing just outside Canadian water or along the Canadian coast they are not being allowed to use such ports for purpose of comfort and convenience and so make them in a large measure for practical purposes bases from which to operate. Seizures were made only when such action appeared necessary to impress the above fact and sentences were not made until after the boats concerned had received notification that Canadian ports might be used only for bona fide shelter or other treaty purposes."

At the present time U.S. ports charge a two cent duty on every pound of Canadian fish sold through them. The object of the Canadian regulations is to prevent United States fishermen selling their fish in Canadian ports and thus gaining an advantage of the Canadian fishermen.

Patrol Of Royal Mounted Order Maintained Throughout Great Regions Of North-West Territories

The city of suburban policeman who is inclined to grumble about the size of the territory he has to patrol, should be given a glimpse of the area which has to be covered by the Royal Canadian Mounted Police. To them is given the task of maintaining law and order and administering relief among the scattered settlements in the great regions of the North-West Territories, stretching in a belt 2,000 miles wide from Baffin Island in the east to the Mackenzie River delta in the west. Posts are established along the Arctic coast from which patrols and investigations are undertaken each year by the officers stationed there. Two years is the normal span of duty for a constable in these territories, but not infrequently the constable of the Arctic is so irresistible that the members of the force return for duty again and again.

Newspaper Suffers Loss By Fire

Plant Of The Turf Recorder Is Prey To Flames
Fire of unknown origin destroyed the post office and newspaper plant at Turf Recorder, Sask., recently. The building and printing plant were owned by C. R. McIntosh, M.P., and were covered by insurance. Post office fixtures, owned by A. Vinge, postmaster and editor of the "Turf Recorder," were also insured. Owing to strenuous efforts on the part of volunteer fire fighters the blaze was kept from spreading. No fire had been made in the building on the day of the outbreak, according to Mr. Vinge.

Regularity Is Essential

Live stock thrives best when fed and watered regularly. There is a strong temptation to lie in on the cold mornings or to do the chores earlier than usual when the days are short and dull. Irregularities in the handling of live stock do not favor greatest thriftiness or production. For best results "chores" should be done by the clock.

Radio school lessons may soon be in vogue in some of the secondary schools in Canada. The Department of Education is said to be considering this innovation.

Always keep Minard's Liniment handy.

Proves Laborious Task

Editor Of Oxford Dictionary Searching For Definitions Of New Words

So many new words have been coined in the past four decades, that thirty pages of the New Oxford Dictionary are necessary to record only those beginning with the letter "A." This was revealed by Dr. O. T. Onions, who is editing the new supplement to the dictionary.

It was not only such obvious additions as automobile and airplane that are giving the dictionary staff a laborious task. The new words, according to Dr. Onions, include a "multitude of common colloquialisms, technicalities that have become public currency, and new discoveries, inventions, names of exotic plants, garments, terms of sport and of the new psychology. There are, for instance, auto-suggestion, auto-piano, auto-erotism, auto-gen, accent in air, to put or get it across, appreciation, the allured line, apache, ascotade, apsidaria, aerobic, alpha rays, drug addict, aliphatic, airworthy, Anglo-phobic and accelerometer."

In the original Oxford Dictionary, published in 1858, "denote" was included but only as an adjective signifying gladdish. "Aspidistra" is a plant long known in old-fashioned English homes, but it never before achieved a place in a dictionary. On the other hand some words coined in 1858 have since become obsolete. The older meaning of "airplane" was a plane or wing, while cinematograph, meaning moving picture, is now dead as a doornail.

Dr. Onions is still searching for adequate definitions, quotations and exact references for many words. Musical terms which puzzle him are atomality and attack.

He thinks he ought to include the word "agin" as in "agin the government," and also the shopping term "agoin'." There is a further possibility that the new dictionary may sanction "allright" as one word because of its universal usage. "Truly," comments the Manchester Guardian editorially, our dictionary makers are toilers at a slyphon task. Just as soon as they have "Z" neatly caught an enlarged and adipose "A" has broken loose at the other end of the menagerie."

Heart Palpitated Nerves Bothered Her Sleep Was Broken

ASPIRIN

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is true that Aspirin means Bayer many there is more the public against imitations. The Tablets will be stamped with their "Bayer Cross" trademark.

SUNDAY SCHOOL LESSON JANUARY 20

CHRIST THE SAVIOUR

Golden Text: "And thou shalt call His name Jesus; for it is He that shall save His people from their sins."—Matthew 1:21.
Lesson: Luke 2:1, 30-32; 15:3-7; John 3:14-17; 10:9-11, 14-16, 27, 28; Acts 8:1-8; Romans 5:1-11; Philippians 2:5-11; 2 Timothy 1:9, 10.
Devotional Reading: Isaiah 53:4-9.

Explanations and Comments

The Value Of A Repentant Sinner, Luke 15:3-7. To the Pharisees and scribes who criticized Jesus for receiving sinners and eating with them, Jesus said: "Is there a man among you who, if he possessed a hundred sheep and found one missing, would not leave the ninety-nine in the pasture lands and search for the lost sheep until he found it?" (By a word translated "wilderness" is meant the uninhabited lands which were the pasture lands.)

"The sheep may shiver with terror and cold when it no longer sees the flock, no longer hears the guiding voice of the shepherd, but it is only the shepherd who knows all that is involved in his position, only the shepherd knows the risks. We sometimes speak of man's infinite loss through sin, and I do not know that was an exaggeration; but after all we do not realize it, even in a measure, until we view from the side of God the poverty and deformity of the 'Christless' soul."—Thomas S.ewart.

When the shepherd finds the lost sheep, he puts it across his shoulders (the easiest way in which to carry it), and returns rejoicing. So great is his joy that he must have others share it, and he calls together his friends and neighbors and bids them rejoice with him.

Grief can take care of itself, says Mark Twain, but to get the full value of a joy we must have some one with whom to divide it.

If you would be so careful and tender of one lost sheep, how much more careful and tender must be the Good Shepherd be of the lost sheep of Israel? "I say unto you," said Jesus, "that even as in the case of this human shepherd there will be joy with God and His angels over one sinner that repents, more than over the ninety and nine righteous persons (such as the Pharisees regarded themselves, Luke 18:9), who (as thou think) need no repentance." Dr. W. L. Watkinson points out three facts in this verse: (1) the significance of the individual—over one sinner; (2) the importance of the individual in his moral life—one sinner; (3) the most important event in the individual life is the restoring of the lapsed soul to God—one sinner that repenteth."

Learned From Experience

The Sunday evening Bible Class had been enlarged to full strength, and two of the latest recruits were discussing Bible topics.

"I think this yarn about feedin' five thousand people on five loaves o' bread an' two fish is all bunk," declared Bill.

"It can be a dead buddy, it can be did," answered Henry.

"Aw, what's the matter with you? You goin' bugs on this Bible stuff?" "Naw," replied Henry, "but I used to be a mess sergeant in France."

Man was made before woman to give him time to think of an answer to her first question.

Minard's Liniment is good for colds.

Practically Safe
Murderers have almost a 100 per cent. chance of escaping the electric chair if they commit crimes in Pittsburgh, the annual report of the homicide squad shows. During the past year thirty-five alleged slayers in fifty-one crimes were apprehended, but not a single one has received capital punishment.

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's an emergency when Castoria means most. Some ailments when constipation must be relieved—when mothers are often suffering, or colic pains—or other troubles. Never be without it; some mothers keep an extra bottle, unopened, to save for the youngest infant; in the house, it is effective for older children, too; read the book that comes with it.

**Fletcher's
CASTORIA**

To Check Flu-Grip

Fight the Germs with Vapors Before They Can Get a Start

Treat All Colds Promptly But Be Careful Not to Disturb the Digestion With Too Much Dosing

While Flu is so prevalent everyone should take precautions to prevent its further spread. Flu is generally accompanied by a headache, burning eyeballs, and aching joints. But it begins so many times with just an ordinary cold.

Too often, the colds are neglected until they have lowered the vitality and permitted the lurking germs of influenza, or pneumonia to "get a foothold." The only safe plan is to attack a cold at the very start. A hot bath, a laxative, and a vigorous application of Vicks Vaporub on the throat and chest at bedtime, will usually break up a cold overnight.

External Treatment Best

For hours after Vicks is applied, its ingredients, time-tested remedies, such as camphor, menthol, eucalyptus, thyme and turpentine, are vaporized by the warmth of the body, and inhaled right to the inflamed air passages. At the same time, the ointment acts

through the skin like an old-fashioned poultice, "drawing out" tightness and pain, and helping the vapors to break up the congestion.

Avoid Upsetting Stomach

This simple external treatment cannot disturb your digestion as too much "dosing" is so apt to do. This is doubly important when "flu" is around, for your stomach, as well as your respiratory organs, must be kept in good condition in order to keep your body resistance at its highest level.

For this reason, too, mothers prefer Vicks for children. It can be used freely and often, even on the youngest child, with no fear of upsetting a delicate stomach.

To Help Ward Off the Flu

When influenza colds are prevalent, you can avoid infection by snuffing a little Vicks well up the nostrils every night and morning, or before exposure to crowds.

2 VAPORUB
OVER 17 MILLION JARS USED YEAR

found Connie busily engaged in spading the earth in search of worms, which she tossed to the swarm of birds that hopped on the ground and filled the air about her.

Scolding the bold camp-robbers that ventured dangerously near the shovel blade, she scattered the soil then laughed joyously as the birds with a great flutter of wings pounced on the fat worms.

Andy threw himself luxuriously on the green sward. This beautiful spot was a diversion from the hot kitchen, a veritable haven of rest. The gentle murmur of the bees among the flowers, the soft, subdued twittering of the birds, the rustle of the leaves, and the laughing of the water, all combined to make one sweet monotone of sound that lulled him into drowsiness.

Connie sat down near him, the birds all about her.

"Cw do you get them so tame, Connie?"

"They know that I love them," she replied simply.

"I can't get anything but the camp-robbers to come near me," said Andy.

"It takes time and patience, Andy. As soon as the birds are assured that you mean them no harm, they are eager to be your friends. You'll remember, Dad told you that without plants man could not live," she went on. "It is equally true that if all the birds should perish, man would soon follow. And, still more wonderful if we had no insects man could not survive."

Andy came to a sitting posture. "Do you mean to say that we should die if we had no insects?" he asked incredulously.

"Surely, Andy, you haven't forgotten what Dad told you last Sunday about insects carrying the pollen from flower to flower," reproved Connie.

"I 'ave it now!" cried Andy, after a few moments of reflection. "If we had no insects to carry the pollen the plants couldn't live. And if the birds were all gone there'd be so many insects that they'd eat up every little thing the farmers raised, and we'd starve to death."

Connie nodded.

"Strike me 'andsome if ain't wonderful!" said Andy in an awed voice.

Connie explained very simply to Andy the benefits derived by mankind from the various birds. Her discourse proved so interesting to him that he paid little heed to the time until the sun, disappearing behind the trees, warned him that it was time to return to his duties. Regrettably he arose and turned to the trail Connie was walking by his side. A golf-club, rich in his summer plumage of bright yellow, black and white, hung swaying like a dainty sprig on a slender stem near the path.

His humming little throat came a rippling, bubbling song like a miniature torrent of ecstasy.

"Dear, dear, dearie," he called sweetly.

"Oh, you darling!" cried Connie as she clapped her hands in rapture.

"I've been trying to find their nest for several days, Andy, but the little dears have hidden it too well."

She made soft clucking sounds as she moved nearer to the beautiful bird. The golden bird fluttered close by her side to perch like a yellow flower on the top of a tall thistle, perked its pretty head and looked up at her with bright shining eyes.

"Dear, dear, dearie," it sang again, then flew with characteristic wavy motion to a clump of willows, twittering sweetly as if calling Connie to follow.

"I 'ave to 'urry 'ome," said Andy as he looked at his watch. He glanced back at a turn in the trail to see Connie pressing the willows gently aside in her search for the goldfinch's nest.

"Strike me pink!" but she is a wonderful girl," soliloquized Andy. "The 'andsomest and the brainiest kid I ever saw in me life. I was thirty years younger, two feet 'igher, and 'arf decent to look at, I'd fall 'ead over 'eels in love with 'er."

He smiled broadly at these ridiculous reflections, but there was a tender light in his bright blue eyes. A

CHAPTER XII.

Andy's study of nature proved to be no idle whim, and Gillis had long since ceased teasing him. All his leisure moments were spent in scouring the hills and meadows for specimens, and regularly every Sunday afternoon he ascended the hill to Wainwright's cabin with his collection for the learned Englishman's inspection.

On this afternoon, Wainwright, being in one of his solitary moods, had wandered up the mountain, and Andy

found himself engaged in spading the earth in search of worms, which she tossed to the swarm of birds that hopped on the ground and filled the air about her.

Scolding the bold camp-robbers that ventured dangerously near the shovel blade, she scattered the soil then laughed joyously as the birds with a great flutter of wings pounced on the fat worms.

Andy threw himself luxuriously on the green sward. This beautiful spot was a diversion from the hot kitchen, a veritable haven of rest. The gentle murmur of the bees among the flowers, the soft, subdued twittering of the birds, the rustle of the leaves, and the laughing of the water, all combined to make one sweet monotone of sound that lulled him into drowsiness.

Visions Scientific

Trip Around Pole

Captain Bartlett Has Spent Thirty Years In Arctic

A four year scientific coasting expedition around the North Pole was visioned by Captain Robert A. Bartlett, home only a short time from eleven months in the Arctic. Captain Bartlett, who has spent 30 years in the frozen north, returned to New York with his famous schooner *Morse* from the Behring Sea, with the Stoll-McCracken expedition. The ship which Captain Bartlett visioned for the four year trip would be almost saucer shaped to withstand ice pressure, and non-magnetic.

Recipes For This Week

(By Betty Barclay)

EGGS IN NESTS

To 3 cups of left-over mashed potatoes well softened with milk add 1/2 cup finely chopped ham or bacon, 2 tablespoons finely chopped parsley, 3 tablespoons butter, salt and pepper. Cover the bottom of a well-buttered baking dish and arrange little nests into which gently break an egg. Allow an egg for each person. Sprinkle buttered bread crumbs over the top, and bake in a moderate oven until the eggs are cooked, but not hard.

PRUNE WHIP DELICACY

1 package of orange junket.
1 pint milk.
1 egg white.
1/4 cup sugar.
1/2 cup prune pulp.
2 teaspoons lemon juice.

Prepare orange junket according to directions on package and set away to chill. Beat egg white until stiff, add sugar gradually until thoroughly blended. Add prune pulp (prepared by rubbing cooked prunes through a sieve) and sugar. Before serving heap the glasses of junket with prune whip, and garnish with sections of orange, if desired.

Should Save Argument

S. Parker Gilbert, Agent-General of Reparations, says that Germany is able to pay to the full scale already fixed. That should save much argument at the coming conference.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling.

Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull". Packs in sheet form.

"Where's the bunk-house?" asked Blackie.

"We don't call them bunk-houses any more, we have dormitories," corrected Gillis as he nudged Donald aside.

"A what?" questioned the puzzled Blackie.

"Dormitories," repeated Gillis.

Blackie glowered at his boss.

"What are you runnin', a ladies' seminary?" he questioned sarcastically.

"And another thing, you don't need your blankets. Company furnishes 'em," informed Gillis.

"Well, I'll tell you one thing right now," declared 'Crazy' Jack, "I ain't going to sleep in a pair of blankets that forty smelly bunks have wrapped themselves in. What kind of a joint you brought us to, Jack?"

"What I want to tell you fellers," said Gillis, ignoring 'Crazy' Jack's remarks, "is this: I want you to stay all summer. None of this running to town to get your trunks fixed, or a new suit, see the ball game, or to meet your sister who's comin' out from the East, and all that old bunk. We got more orders—"

"Can that chatter," interrupted 'Fighting' Jack with a wide grin. "We're all going to town on Dominion Day, ain't we, boys?"

"You tell," they roared as one.

Gillis shrugged his shoulders resignedly. "Thought you fellers was gettin' old enough to have a little sense," he said.

"Too much kick in us yet, Jack," demurred Blackie.

"Where is this door-mee-tory, Jack?" asked Hoop-la.

Gillis pointed to the long building, and the boisterous crowd moved noisily up the hill. The men dropped their packs to the ground outside the door, and, shuffling each other, peered in. "The long rows of white beds stood immaculate against the walls, and white-coated flunkies were sweeping the glossy varnished floor.

"This ain't the right place," growled Hoop-la. "This is the hospital."

Personal and Local

A. F. Short was a visitor to Lethbridge during the week.

The L.O.B.A. asks you to keep Feb. 2 open and to watch for important announcement.

That popular company, "The Dumbells," are playing at Lethbridge on Friday and Saturday.

Mr. A. M. Morrison is showing improvement after a week or more of serious illness.

Mr. and Mrs. Wm. Gardiner of Lethbridge were visitors with Mr. and Mrs. M. Wilson.

Charlie and George Graham, former Coleman hockey stars, are playing this season for Lacombe.

Miss Treffer, matron at the hospital, recently returned from Portage la Prairie, Man., her mother having been seriously ill.

Major R. F. Barnes will be away during February attending a course at Fort Osborne barracks, Winnipeg.

Russell Ferguson, who sustained a painful injury to his leg in November, and was in hospital for six weeks, is now able to be around with the aid of crutches.

Car owners are advised to send for their 1929 license plates without delay so that they have them by Feb. 1. This will save trouble and inconvenience.

Felix Cappel lost the tip of his index finger in the McGillivray mine last week. The bumper of a car dropped on it while helping to put the car on the track.

The Oddfellow and Rebekah Lodges held a joint installation ceremony on Monday and the list of officers will be published in the next issue.

See "Nameless Men" with all star cast at the Palace next week, also "Surrender," and "Real Feature." "Wings" on Friday and Saturday.

Coleman hockey team will play a league game at Hillcrest at 7 p.m. Friday, Jan. 18, and a very keen game is anticipated, as in previous games Coleman has won only by very close margins.

Charlie Makin has been appointed president of the Coleman orchestra, in place of Ed. Royle, who resigned owing to his duties preventing him from continuing in office.

Roland Laslett has been in Calgary this week on a buying trip for his ladies wear store, and made heavy purchases of spring goods from the manufacturers, including a very fine line of the famous Andrey Lea hats, from Seattle, Wash.

MAYFAIR

The Classicist of Class Publications
Society — Sports — Dress
\$3.00 for one year—\$5.00 for two years

Most entertaining—most intriguing—amplifying—that brilliant social world—see it at play—in sport—in society—abroad.
See how they look doing it—the sort of clothes they wear. The elixir of Canadian society—newspaper—entertaining. Only \$3.00 per year.
